

DEFICIENCY BILL IS PASSED

Senate Approves Measure as Reported by the Committee.

SHARP DEBATE OVER CANAL SECTION

Provision Abrogating Eight-Hour Law on Isthmus is Allowed to Stand After Long Discussion.

WASHINGTON, Feb. 9.—Almost the entire session of the senate today was devoted to the consideration of the urgent deficiency bill, which was passed practically as it was reported from the committee on appropriations.

At the beginning of today's session of the senate Mr. Foraker presented an amendment to the Isthmian canal bill, directing the method of proceeding in Arizona and New Mexico on the question of admission.

Under examination by Senator Morgan the question was raised whether the courts, as constituted by the Isthmian Canal commission, could deny to an American citizen his inherent right to trial by jury when charged with a capital offense.

Mr. Money opposed the Patterson amendment. "What it all means in plain English is that there is being planned on the Isthmus a slaughter house for aliens and that the canal is to be built at a fearful cost not only of money but of life."

Mr. Tillman replied to Patterson. Mr. Tillman also took issue with Mr. Patterson, saying that "when the Colorado senator makes an appeal for alien labor he would better look a little closer home and consider the American laborer, who in the end must pay for building the canal."

Mr. Patterson withdrew the amendment he had offered and the senate voted on the limit of a day's labor on canal work at ten hours instead of eight.

The amendment was lost. Mr. Tillman expressed dissatisfaction with the relationship between the canal commission and the Panama Railroad company and said he hoped the canal committee would find means of unifying the canal and the road.

PENSION DAY IN THE HOUSE

Four Hundred and Twenty-Nine Bills Passed in Seventy-Two Minutes.

WASHINGTON, Feb. 9.—The house today ground out its usual semi-monthly grind of private pensions, passing in seventy-two minutes 429 bills for the benefit of veterans who are barred for one reason or another from coming in under the general statute.

Seventy-five per cent of these bills are for the benefit of persons either blind or bedridden. Before taking up the pension bills the house voted to adjourn until Monday at the close of today's session.

It also passed bills as follows: For the removal of the county seat of Washita county, Oklahoma, from Cloud Chief to New Cordell.

Authorizing the secretary of the interior to lease a tract of 196 acres of land in Stanley county, South Dakota.

A bill to amend the Philippine tariff act was called up by Mr. Payne (N. Y.), chairman of the ways and means committee. He explained that the bill related to cotton goods and shoes.

The cotton manufacturers in this country, he said, make goods twenty-two inches wide. European manufacturers weave in double this width and then cut the strip in the center, thus saving half the cost.

These goods are known in the trade as "false selvage" goods, on which the rate is raised to the point which does away with the discrimination against American goods.

WASHINGTON, Feb. 9.—Charles E. Magoon, governor of the Panama canal zone, was before the senate committee on inter-territory canals today and gave his testimony in connection with the investigation of the canal work.

In response to a request from Chairman Millard, Governor Magoon outlined conditions on the Isthmus when he was assigned to duty there last spring. He had, he said, found an excellent organization for the government zone, but that the men there were much overworked and very anxious over the effects of the reorganization.

No removals were adopted. The sanitary force was also well organized and it had done and is now doing excellent work in securing in that force a number of army men who had been engaged in the sanitation of Cuba.

Governor Magoon contended that fever conditions in Panama are better than formerly. Under examination by Senator Morgan the question was raised whether the courts, as constituted by the Isthmian Canal commission, could deny to an American citizen his inherent right to trial by jury when charged with a capital offense.

Mr. Money opposed the Patterson amendment. "What it all means in plain English is that there is being planned on the Isthmus a slaughter house for aliens and that the canal is to be built at a fearful cost not only of money but of life."

Mr. Tillman replied to Patterson. Mr. Tillman also took issue with Mr. Patterson, saying that "when the Colorado senator makes an appeal for alien labor he would better look a little closer home and consider the American laborer, who in the end must pay for building the canal."

PHILLIPS AND JOHNSON TRIAL

Timber Cutting on Blackbird Island

The next case to come to trial before Judge Munger in the United States district court will be that of the United States against George F. Phillips and William L. Johnson, who are under indictment for cutting timber on public lands on Blackbird Island. The Indians protested, as they held the island was a part of their reservation.

The island was re-surveyed and it was found the contention of the Indians was correct and the entries of Phillips and Johnson were cancelled. Suit was thereupon brought against Phillips and Johnson for trespass and illegally cutting timber on government land.

DUN'S REVIEW OF TRADE

BIG INCREASE IN RAILWAY EARNINGS

Nearly Complete Reports for January Show Gain of 10.6 Per Cent Over Year Ago.

NEW YORK, Feb. 9.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: Distribution of heavy-weight wearing apparel, fuel and other seasonal merchandise expanded rapidly in response to the more normal temperature, but the week's business has not depleted the accumulation of goods as still burdensome. Reports are much more satisfactory, however, and an impetus has been given wholesale trade in spring goods and other forward business.

Business of predictions and preparation for a general coal strike, possibly involving 600,000 men, it is also to be noted that the mild weather has caused an accumulation of retail stocks of heavy clothing, shoes and dress goods, and has eliminated the order business from jobbing hands, though western reports speak of possible carryover stocks being quite well reduced, considering weather conditions.

Business failures in the United States for the week ending February 8 number 24, against 23 in 1905, 21 in 1904 and 26 in 1903. In Canada failures for the week ending February 8 are 3,41,233 bu., against 3,250,000 bu. in 1905, 3,100,000 bu. in 1904 and 3,300,000 bu. in 1903.

Great, including flour, exports from the United States and Canada for the week ending February 8 are 3,41,233 bu., against 3,250,000 bu. in 1905, 3,100,000 bu. in 1904 and 3,300,000 bu. in 1903.

Stewards of Incorporated Track Circuits to Have Control of Contests.

CHICAGO, Feb. 9.—A satisfactory adjustment was reached on all questions under discussion by the Grand Circuit Trotting Tracks and the American National Trotting Association at their rules committee meeting here today.

Another matter of which the conference took notice as the making of the time records by trotters and pacers. At present the rules governing trials against time are not observed in spirit by some of the tracks where trials are made.

During the conference here the Register association held its annual meeting and elected officers for the coming year. Another step taken was to decide that hereafter, in order to be registered at half the usual rate, application on behalf of each colt must be made before the animal is a year old.
